

Pre-16

The Pre-16 Programme is a service designed to support our learners typically aged 14 to 16. It is for those who need direction and skills to make informed choices for their future development. For example, the learner may not be currently attending main-stream education and experience low self esteem or challenging behavioural issues.

We challenge this through focused and individualised training programmes designed to meet the needs of the learner. We have an open door policy enabling training to be accessed from one day per week to a full academic year. We have developed strong working relationships with Schools and Pupil Referral Units. This service has recently fulfilled the criteria for the Quality Assessment Framework. We are the preferred providers for the Local Authorities. Below is a current list of current course options.

- Literacy
- Numeracy
- ICT
- Personal and Social Development
- Employability Skills
- Painting and Decorating
- Health and Beauty
- Hairdressing
- Plumbing
- Electrical Installation
- Roofing and Tiling
- Bricklaying
- Carpentry
